

Table of Contents

| Contents | Page |
|---|-------------|
| Executive Summary | i |
| Table of Contents | vii |
| The oceanographic condition | |
| Oceanographic Condition of the Bay of Bengal During November- December 2007 | 1 |
| Comparison of Total Phosphorous Contents and Total Alkalinity in Seawater of Different Area in the Bay of Bengal | 17 |
| Distribution of Nutrients in the Bay of Bengal | 33 |
| Distribution of Chlorophyll-a in the Bay of Bengal | 45 |
| Hydrobiological conditions | |
| Species Composition, Abundance and Distribution of Phytoplankton in the Bay of Bengal | 53 |
| Composition, Abundance and Distribution of Zooplankton in the Bay of Bengal | 65 |
| Abundance, Composition and Distribution of Fish Larvae in the Bay of Bengal | 93 |
| Distribution and Abundance of Cephalopod Paralarvae in the Bay of Bengal | 125 |
| The fishery resources | |
| Large Pelagic Fishery Resource Survey using Pelagic Longline in the Bay of Bengal | 135 |
| Marine Resource Surveys by Drift Gill Net in the Bay of Bengal | 149 |
| Efficiency of the Circle Hook in Comparison with J-Hook in longline Fishery | 167 |
| Biological Aspects of Economic Fishes in the Bay of Bengal | 182 |
| Elasmobranchs Found in the Bay of Bengal from Pelagic Longline and Drift Gill Net Fishing | 190 |
| Age and Reproduction of <i>Sthenoteuthis oualaniensis</i> in the Bay of Bengal | 195 |
| Stomach Content of the Large Pelagic Fish in the Bay of Bengal | 206 |
| Heavy Metal Contamination | |
| An Assessment of Mercury Concentration in Fish Tissues Caught from Three Compartments of the Bay of Bengal | 221 |
| Heavy Metal Contents in Purpleback Squid (<i>Sthenoteuthis oualaniensis</i>) from the Bay of Bengal | 233 |
| Appendix | 245 |
